## 2010 Maturation Release Cabernet Sauvignon

---

### Variety

100% Cabernet Sauvignon.

### Colour

Intense and vibrant dark plum.

### Aroma

Vibrant notes of blackcurrants and cassis with notes of truffle, leather and crème brûlée.

### Palate

This wine has lively flavours of dark berries and black olive. The fruit has opened up beautifully from a little age and well integrated oak, resulting in a deliciously complex and layered wine.

### Food Matching

Pair with vintage cheddar or a peppered rib eye with red wine jus and caramelised roasted root vegetables.

### Cellaring

Whilst the wine has already been cellared for five years and is drinking beautifully now, it will continue to evolve perfectly for another five or more years.

### Wine summary

A mature wine with a strong identity cellared under ideal conditions, full of fruit and a complexity of secondary aromas and flavours. This is a true dining companion.

### Winemakers
