*“America’s original craft-brewed Ale since 1975”*

ANCHOR BREWING~SAN FRANCISCO

# ANCHOR BREWING ~ SAN FRANCISCO

Since

1975

## LIBERTY ALE®

SAN FRANCISCO'S WORLD RENOWNED LIBERTY ALE® was first brewed on the 18th of April, 1975 to celebrate the 200th anniversary of Paul Revere's historic ride. It is still virtually handmade by the brewers of Anchor Steam® Beer in one of the smallest and most traditional breweries in the world. Liberty Ale is made with the finest barley malt, fresh whole hops, top-fermenting yeast, pure water, and the simple, natural methods that reflect our exceptional respect for the ancient art of brewing. It is "dry hopped," a classic Ale tradition, and

*In 12- and 22-ounce bottles and on draught!*

slowly completes its fermentation in sealed vats in our cellars. This unique process creates Liberty Ale's distinctive bouquet and uncommonly delicate, entirely natural carbonation.

## THE ANCHOR BREWING COMPANY

has been making beer in San Francisco since 1896. Uniquely San Franciscan, Anchor has played a significant, though small, role in California's majestic history. Anchor's beers, including *Anchor Steam®*, are all produced in one of the most traditional and handsome breweries in the world. Each brew is virtually handmade from an all-malt mash in our handcrafted copper brewhouse, a veritable museum of the simple, traditional brewhouses of old. At Anchor, we practice the time-honored art of classical brewing, employing state-of-the-art methods to ensure that our beers are always pure and fresh. In addition, every bottle and keg of Anchor beer is kept under refrigeration at the brewery *and* at the warehouse of

your local distributor. We know of no brewery in the world that matches our efforts to combine traditional, natural

brewing with such carefully applied, modern methods of sanitation, finishing, packaging and transporting.
