

## CHAIN OF FIRE

*Much of Australia's premier winegrowing regions were profoundly influenced by volcanic activity of many millennia ago. "Chain of Fire" is the experts' term for a series of extinct volcanoes.*

*Rich volcanic soils create ideal conditions for the growth of high quality grapes which we celebrate in this label featuring a blacksmith - in tribute to Vulcan, the Roman God of Volcanoes, a supremely skilled artisan whose metal-working forge was a volcano.*

### NV Brut Cuvée

#### *Region*

South Eastern Australia

#### *Tasting Note*

Chain of Fire Brut Cuvée is light and fresh, with zesty fruit flavours and lively bubbles. It's a little lower in alcohol than the norm, so the perfect party fizz.

#### *Winemaking Notes*

Harvested at night when the fruit is at its coolest, pressed then fermented with selected yeast with the resultant carbon dioxide retained to give its refreshing spritz.

Alc/vol: 10.0%

Closure: Stelvin + screw cap
